

ACKNOWLEDGEMENT

I consider it a matter of great privilege and immense satisfaction to express my sincere gratitude to all those who have supported and guided me throughout the successful completion of my Summer Internship Report titled “**RADMAP – RADiation MAPing – GPS Enabled Radiation Mapping Prototype on Raspberry Pi-5 (3D Visualization)**”. This internship has been an invaluable learning experience, providing me with practical exposure to research, embedded systems, radiation mapping, GPS integration, and real-time visualization.

First and foremost, I would like to express my heartfelt gratitude to my respected mentor, **Dr. Garima Bohra**, for her constant guidance, valuable suggestions, encouragement, and continuous support throughout the internship. Her technical expertise, motivation, and constructive feedback greatly contributed to the successful completion of this project and enhanced my understanding of research and development in the field of nuclear science and technology.

I would also like to extend my sincere thanks to **Dr. Abhishek Yadav** for his invaluable guidance, technical insights, and support during the development and validation of the RADMAP prototype. His encouragement and mentorship played a significant role in shaping this research work.

I am grateful to **Prof. (Dr.) Alpana Goel**, Director, **Amity Institute of Nuclear Science & Technology (AINST)**, and **Amity University Uttar Pradesh, Noida**, for providing the necessary facilities, resources, and an excellent research environment that enabled me to successfully complete this internship.

Finally, I express my heartfelt appreciation to all the faculty members, research staff, and everyone who directly or indirectly contributed to the successful completion of this internship and report. Their guidance, cooperation, and encouragement will always be remembered with gratitude.

Dhruv Dhayal
